Decisions

Hello,

I am a computer scientist with working experience as a SDET/Software Tester with a focus in automation testing. I was recommended by Jamal Spence, Julien Spence and Quentyn Hall to apply to Decisions. I can tell they are treated well and happy working at Decisions and I would like to offer my services to the company.

I have a bachelor's in computer science from CNU. As a previous member of a QA team, I am very experienced in communicating with the developers and project managers concerning technical specifications. I possess both the Security+ and the AWS CCP certifications and intend to continue obtaining certifications.

I am well practiced, well experienced, and well adjusted to join your team. I wish nothing more than to provide you with the highest excellence and quality assurance for you and your customers. I hope to hear from you to discuss how we may move forward.

Sincerely,

Cole Kendall
